Attached, for your review, is correspondence related to the above referenced sewer abatement request.

The circumstances associated with this request have been investigated by the Department of Public Infrastructure, Water Division. There was a leaking ball valve at this location; the water leaked from this location into the basement next door, 121 Willis St. The owner of 121 Willis St., Mr. Nolan Prince, has given his statement that he ran his sump pump for 24+ hours and drained the water into his backyard. As the result of the investigation, I would recommend that a credit of \$103.75 be allowed.

Should you be in agreement, I would ask that you communicate the abatement recommendation to the City Council.
