RE: SEWER ABATEMENT REQUEST

Paul Amadon

Attached, for your review, is correspondence related to the above referenced sewer abatement request.

The circumstances associated with this request have been investigated by the Department of Public Infrastructure, Wastewater Division. As the result of the investigation, there was a leak at the joint after the meter shut off, and the excess water went into the cellar and absorbed into the dirt floor cellar and did not enter the collection system. I would recommend that a credit of \$24.90 be allowed.

Should you be in agreement, I would ask that you communicate the abatement recommendation to the City Council.

As per my conversation to you, I am asking for a sewer abatement on the above property from 4/24/16 to 5/26/16 and the next reading from 5/26 to June reading, 2016.

We normally use 5-6 cc max. We are currently not living at this address for the summer.

The water that was leaking wasn't going into the sewerage, but onto our basement floor.

Thank you in advance for your attention to this matter.
