

This is a petition on behalf of the Caroline St senior community. We are writing this letter to inform you that we greatly oppose the closing of the Health Center at the Caroline St site. This extension to the Health Center is very convenient to the community as we do not concern ourselves in having to schedule transportation. This community center is neat, well maintained and accessibility is great. On a bigger scale this facility is comprised of a caring, compassionate staff that is committed to their patients while providing quality care. The teamwork they exhibit in that office is outstanding. They take time to listen to their patients concerns and go the extra mile to make sure their needs are met. In addition to caring for their own patients the staff is also committed to the residents who stop by and voice their concerns about their health issues. They take the time to listen and make sure everyone feels validated. The residents are treated with the same kindness and dignity as their patients. This center at Caroline St. is different from the downtown center as the environment is much more calming and soothing without the added chaos. Again, we are asking you to please reconsider your decision to close the Health Center at the Caroline site as we really appreciate the convenience of having our health needs met in our own community.
