Hanscom/Bedford Airport (KBED)

To Whom it may concern,  
New Bedford Airport Committee

Greetings,

My name is Eli Mejia. A corporate jet pilot that normally flies his owner to your airport. As a 12 passenger private jet pilot, we always strive for safety and always try to find to best options to get us into our destination as efficiently and safely as possible. Me and the rest of my flight crew understand that one of the runways will be "thinner" by several feet. This is a concern to us as a 5000ft runway length is the limit of our operations, but also...a not-so-wide runway (meaning: reducing it to 75ft wide) poses a risk when encountering strong crosswind takeoff and landings. Please take this into consideration as your city drafts next years' fiscal budget.

Thank you,

*Eliab Mejia*
