WESLEYAN UNIVERSITY

Objective: To utilize longtime experience in water works and wastewater civil and environmental engineering to assist municipalities in developing capital projects.

Professional Experience

MassDEP - 2003 to Present
Boston, Massachusetts
Environmental Engineer V

Work in BRP's Division of Municipal Services. Responsible for determining Massachusetts capital and planning needs for municipal water works, wastewater and stormwater infrastructure through implementation of grants, contract procurement, and payments utilizing state revolving funds working through the Clean Water Trust. Responsible for implementation of funding programs for 0% interest rate financing, grants, and planning projects.

Also, worked in the Water Management Act Program responsible for outlining technical issues, and developing written policies, and the rewrite of EEA's State Water Conservation Standards.

Executive Office of Environmental Affairs - 1998 to 2003
Lakeville, Massachusetts
Taunton River Watershed Team Leader

Watershed team leader working directly for the state's Environmental Secretary, responsible for the identification, planning, obtaining of funding, and coordination of environmental, planning, special projects and federal designation (Wild and Scenic River) for the Taunton River. Duties included coordinating and representing the interests of the Environmental Secretary to federal and state legislators, municipal officials, watershed associations, environmental partners, and concerned citizens to determine and prioritize environmental needs and obtain funding. Also provided project planning, engineering design and construction oversight and compliance with Massachusetts procurement laws.

MassDEP - 1990 to 1998
Boston and Lakeville, Massachusetts
Environmental Engineer

BRP - Bureau of Municipal Facilities engineer responsible for grant programs that funded all components of water works projects. Provided oversight of engineering, financial, technical and administration for Massachusetts contract procurement, M/WBE compliance, bidding, construction oversight, and change order review of infrastructure projects. Duties included oversight of staff, meeting with DEP's regional office staff, municipal officials and political representatives to outline technical issues and financial solutions for proposed and funded capital projects.

Developed DEP's Community Septic Management Program, presenting and initializing program to State municipal organizations, local municipal officials and town and city council public meetings.

Wayne's Well Drilling Inc. - 1989 to 1990
Middleborough, Massachusetts - Associate

Provided engineering design and management services to private business that included well drilling, cranberry growing, hazardous waste site, mobile home development and other business ventures. Responsibilities included resolving state and local regulatory compliance issues concerning wetlands, local zoning, special permits and construction projects. Position included management of staff of fifteen (15), permit applications, cost analyses, bidding, contract and budget preparation, regulatory reviews and construction oversight.
