RE: SEWER ABATEMENT REQUEST

Armando Dias
399 John St
Account #: 1024651

Attached, for your review, is correspondence related to the above referenced sewer abatement request.

The circumstances associated with this request have been investigated by the Department of Public Infrastructure, Wastewater Division. As a result of the investigation, a backflow prevention device on the outside of the property had its cap ruptured due to accumulating air pressure and as a result, water was pouring out of the pipes. The problem has been addressed and the leak(s) have stopped. All the water coming out of this device did not make its way back into the collection system. I would recommend that a credit of \$266.20 be allowed.

Should you be in agreement, I would ask that you communicate the abatement recommendation to the City Council.
