Subject: Re: Deer Island Tour Invitation

Tracy

Thank you for the message and your invitation to join you and others this week on the Deer Island tour. As you are aware, like myself, most of my colleagues work full time jobs in the private sector. Taking time off in the middle of the day is often problematic.

Should one of my colleagues be able to join you I know they will update us on the events Friday. However if that is not possible please do forward to us a synopsis of the tour and your findings.

Thanks again for including us and for your steadfast opposition to the Parallel Products expansion proposal.

Linda Morad
Councillor At Large
City Council President

Dear Councillors,

Members of South Coast Neighbors United will be touring the Deer Island Wastewater Treatment Plant on Friday, August 16th, from 10:00 AM to 12:00 PM, and we would like to extend an invitation for members of the City Council to join us. We are participating in this tour to learn more about responsible methods for dealing with waste, as part of our continued research into the Biosolids Processing Plant proposed by Parallel Products for the Business Park in New Bedford. We firmly believe that there are better alternative options to this project, and we are eager to share the experience of learning them with you. More information about the facility on Deer Island here: http://www.mwra.com/03sewer/html/sewdi_access.htm

We will be carpooling from the New Bedford area on Friday morning and we hope you can join us!
