As a born outdoor enthusiast and student of Ayurveda, I love nature and those things in its natural state. Our true nature is a reflection of Mother Nature so I strongly believe in securing our natural resources. Protection of our natural resources and sustainability are very important to me, especially as it relates to climate change and becoming aware of how it impacts climate justice. Being a New Bedford native, I feel it is my responsibility to contribute to the Conservation Commission to help preserve what is meant to be available to all.
